PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only to the United States, if the invention is to be protected in a foreign country, an inventor who wishes to obtain protection in another country must apply for a patent in that specific country or in regional patent offices. Additionally, new inventors should consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international PCT application generally has the same effect as a regular national patent application in each PCT member country. The PCT process simplifies the filing of patent applications on the same invention in member countries but does not result in a grant of "an" international patent and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law. Thus, a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ significantly from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not compromised.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO may issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicants' foreign filing rights.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents"), for more information on the rules and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO's Contact Center at 703-913-9999 or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/m002.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government's website, <http://www.uspto.gov>. Part of a Department of Commerce initiative, this website includes "self-help" "toolkits" giving inventors guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement, applicants may call the U.S. Government hotline at 1-800-299-1414 (T-1-866-599-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 124 Title 37, Code of Federal Regulations, 5.114-5-15

GRANTED

The applicant has been granted a license under 35 U.S.C. 124 of the phrase: **IF REQUIRED, FOREIGN FILING**.

"LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether a license may be required as set forth in 37 CFR 5.15. The scope and limitations of such license are set forth in 37 CFR 5.16. Notice is herein given that a license has been issued under 37 CFR 5.15(d). The license is subject to revocation upon written notice from the agency. The date indicated is the effective date of the license. Other, broader, license or similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and is not cancellable or revocable after the effective date hereof unless it is revoked. This license is automatically terminated by any related application(s) filed under 37 CFR 5.14. This license is not retroactive.

The grant of a license does not in any way except the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. The licensee should apprise themselves of current regulations, especially with respect to certain countries, of other agencies (particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War), 22 CFR 126-128), the Bureau of Intelligence and Security, Department of Commerce (15 CFR Parts 730-774), the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500-1) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted. OR INSTEAD, the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applications will be denied for a license under 37 CFR 5.14 if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months have passed from the filing date of this application and the licensee has not received any notice of a secrecy order under 35 U.S.C. 181, the licensee may file an application pursuant to 37 CFR 4.15(b).
